

FOR SALE

YAESU FT-8000 VHF/UHF transceiver

FT-8000 Dual Band Mobile Super Wide Multi-band Receive for the scanning enthusiasts 110~550, 750~1300* MHz (*Cellular blocked).

Smart Search automatically sweeps a band and loads active frequencies in dedicated memory banks and is ideal for identifying active repeaters when visiting a city for the first time.

108 Memory Channels each stores repeater offset, CTCSS, Packet speed & power level.

Digital DC Voltage Display monitors current car battery voltage. Dual Receive (VHF/VHF, UHF/UHF, VHF/UHF) and cross-band

Repeat is also built-in. Full 50 Watts Power Output on VHF, 35 Watts on UHF, 3 selectable levels with 10 W medium and 3 W low power also available. 1200 or 9600

Baud Packet available with easy interface via a dedicated rear-panel jack.

Complete with power lead, manual and microphone.

Sorry no mobile bracket

£170 o.n.o.

**GEORGE G3DLG DESPARATELY SEEKING
COMPANION FOR HOLIDAY COVER**

George G3DLG is desperately seeking someone to be a Companion for 2 to 3 weeks While his present Companion goes away on holiday. It would probably be March or April. Sorry, no certain dates at present.

You would have your own Bedroom, meals and a small wage. (This is of course by arrangement between yourselves).

If anyone can help George, or they think they know of someone who can, would they please contact me, Carol on 01305 820400 or carolonfragle@tiscali.co.uk and I will pass your details on to George.

**SOUTH DORSET RADIO SOCIETY—NOTICE OF CHANGE FOR
THURSDAY NIGHT NET**

Graham (2E1GOQ) will be unable to run the net on Thursday nights for about 4 to 6 weeks as his HF –FT920 Rig is sick and has to go to the Computer Hospital for repairs ‘again’.

He apologises for any inconvenience caused, but suggests, maybe someone else would like to continue the Thursday Net night for the time being.

If anyone is interested in holding the fort for this period, as from this week, please just go ahead and call—Thursday 19.00hrs onwards on 10 mts on 28.350MHz, and I am sure you will be well received.

Thanks on behalf of the Net Controller - Graham 2E1GOQ

Otherwise things will return to normal as soon as possible. Hi Hi
