**THE KIT ABOVE, IS A REMOTE TRANSMITTING
AMPLIFIER, AND IS MADE BY THE
RADIO PIRATES TO TRY AND DECEIVE THE
INVESTIGATION TEAMS FROM FINDING THE ACTUAL
PIRATE STATION ITSELF. THEY ARE PLACED IN
PLACES (LIKE CHIMNEY FLUES WITH BOBBY TRAPS)
THAT ARE MADE EXTREMELY HAZARDOUS AND
DANGEROUS FOR THE INVESTIGATORS
THEMSELVES TO REMOVE WHEN LOCATED.
THIS IS REMOTELY LINKED TO THE MAIN RADIO
STATION VIA MICRO WAVE FREQUENCIES. THIS IN
TURN, MAKES IT EVEN MORE DIFFICULT FOR THE
INVESTIGATORS TO PIN POINT THEIR TRUE LOCATION**
